

From Severine von Tscharnher Fleming

The Greenhorns works to support, recruit and promote young farmers, America's fierce patriots of soil fertility.

How can new farmers be supported?

1. CSA commitment

2. Farm Bill Actions, actually call ! And join:
NFU or NSAC or National Family Farm and certainly National Young Farmer Coalition.

3. Collaboration/Capitalization

Be active in the community process of agriculture, with the people of agriculture, in the businesses and logistics of local agriculture.

- accounting
- networking
- infrastructure
- organizing
- support/ farm volunteership
- investment/ capitalization
- farmland protection

4. research. ask farmers, or me! about how to target your graduate research to the needs of practitioners, not just silly ice cream research

5. Share your skills, spend some time.
